

100-tonne air freight cargoes from Germany in one shipment

Germany

Malaysia

air freighted to Malaysia due to urgency of project

42 pieces of cargoes stored in Multi-Trans' yard in Port Klang for fabrication and installation works

Air-freighting Aviation-related cargoes

Windshield of a private jet flown in from San Francisco to KLIA then transported to Melaka International Airport.

Airplane propeller air freighted from KLIA to Kuching airport, Sarawak for the Royal Malaysian air force unit.

New Solar Projects by New Contrators

We have managed to secure a few clients setting up new solar generating facilities for 2018 after the change of the Malaysian government, as approved by the Ministry of Energy, Science, Technology, Environment and Climate Change.

Handling Transformers from Antwerp, Belgium for 8 MW Solar Plant

The four units of transformers were shipped in via flat rack and open top containers, stored in our warehouse in Port Klang before we delivered for the installation procedure to be done.

Inverters for a reputable PV Panels Manufacturer and one of Malaysia's Large Scale Solar farm experts

Apart from photovoltaic panels, we also brought in inverters from China and Germany for the set-up of solar generating facilities. Additional services include storage, sorting and repacking before delivering to site.

Switchgears in Railway Stations for 52-km Railway Link in Kuala Lumpur

Switchgears are integral as electricity control for power supply to railway lines. We have secured the deal to import large amount of switchgears from several countries for the construction of the ongoing railway project in Kuala Lumpur.

Kerteh, Terengganu

Delivering fabricated steel structures to Kerteh for the construction of offshore oil and gas site.

Steel fabrication factory in Johor Bahru

Megalift transported and erected two units of cold boxes for a new chemical plant in the state of Perak.

Cold Box 1: L10.68 m x W4.01 m x H2.81 m - 22.5 ton

Cold Box 2: L30.84 m x W3.32 m x H3.65 m - 50.4 ton

Projects by our associate
Megalift

Track 4A is a new power plant located in Pasir Gudang, Johor that's expected to achieve scheduled commercial operation on 1st July 2020. We have completed ten shipments of numerous different structures that have varying dimensions and weights. Many more larger and heavier cargoes are expected to arrive in the coming months. We expect to complete our scope by the third quarter of 2019.

Activities within the MTML Group

MULTI-TRANS GROUP OF COMPANIES' 38th ANNIVERSARY DINNER

Congratulations to our Multi-Trans and Megalift bowlers for emerging as Champions and First Runners Up in the recent Selangor Freight Forwarders Logistics Association, SFFLA's Bowling Championship in Kuala Lumpur!

We completed an air freight training for Multi-Trans' sales team in our office in MAS Kargo, KLIA and a tour to the customs' office as well as airline terminal.

More than 30 of us attended Multi-Trans and Megalift's yearly First Aid & CPR training to equip themselves with the first aid skills during the occurrence of any emergencies. It is a skill and knowledge highly useful in both our job and in our personal lives.

We would like to take this opportunity to wish you

Merry
Christmas & *Happy New Year*
from all of us in Multi-Trans! **2019**
