

## HANDLING OF TRAILERS IMPORTED MONTHLY FROM CHINA

Our client, being a large trailer company, imports regularly from China. These chassis are unstuffed from containers and stored at our open yard in Port Klang. Our team is tasked to perform some installation works and administer the inspections by the Road Transport Department of Malaysia prior to transferring the trailers to our client.

## 500 CONTAINERS FOR NEW SOLAR PLANT

Early this year we nailed a new solar project to be the plant's official logistics partner. We're glad to add another large-scale solar project to our track record. Having handled more than 10 projects in merely the past two years, we have to say we're now highly familiar with the intricacies of administering the logistics for solar farms, however small or big they may be. Be it the general scope of import and ground transportation as well as licenses and permits, we have proven to be reliable and up-to-date with the relevant information.

For this new project, we had just started the shipments importing from China, Spain and Italy. We're expecting the remaining 350 containers or so to complete in the next two months.

# MASSIVE SPACE TAKEN UP FOR 50-KM RAILWAY CARGOES

More than 40,000 square feet of space in our warehouse in Port Klang has been occupied to store various cargoes for Klang Valley's ongoing railway project. Among the crated goods are numerous types of transformers in varying sizes, switchgears, accessories and many other smaller items.

## AIR FREIGHT

### 5 TON OF MEDICAL EQUIPMENT FROM NARITA TO KUALA LUMPUR

Despite the large volume and heavy weight, our client regularly imports medical equipment via air freight as these devices are extremely high in value. The more stringent security and faster transit time are crucial factors that the client cannot compromise, especially in delivering the goods safely to their customers.

### AIR FREIGHTING AN URGENT BALL VALVE

Weighing more than 2 ton, we collected this ball valve from Kemaman, travelled for more than 360 km by road before flying it to Kuching for an urgent order.

### FRESH ASPARAGUS FROM GERMANY

Just last week, we imported a large volume of fresh asparagus from Germany for an Asparagus Party held at one of the renowned hotels here in Malaysia.

# 25 TON MOULDING MACHINE FROM JAPAN FOR LIGHTING MANUFACTURER

An established automotive lighting manufacturer from Japan, our client has a large factory base in Malaysia that produces a wide range of lightings for vehicles. This is a moulding machine imported as they expanded their production lines to support to both local and international automotive companies in Malaysia.

## REGULAR CROSS-BORDER TRIPS

We provide cross-border transportation services to and from neighbouring countries, especially Thailand and Singapore. This is one of our recent transportations delivering wire ropes and other lifting equipment from Singapore to Port Klang and vice versa.

## JC TRANS CONFERENCE 2019 @ KL, MALAYSIA

Every year we participate in a handful of conferences to meet and build relationships with agents from other countries. This is how we ensure your moving of goods anywhere in the world is done in good hands.
