

AIR FREIGHT

7 TON OF BUILDING PANELS AND LIFTING MACHINE FOR MALAYSIA'S MACHINERY TECHNOLOGY CENTRE

We received two distinct shipments from Manchester, UK and Melbourne, Australia respectively, and facilitated their delivery to the technology center, located approximately 2 hours away from KL International Airport.

EXPORT OF DRONE BATTERIES (DG CARGO) FROM KLIA TO BRUNEI

Shipping these drone batteries was challenging as we needed to obtain approval from the airline and the Dangerous Goods department. In addition, the cargoes had to be inspected before loading, and we had to comply with the DG regulations of the receiving country.

HANDLING AND UNLOADING OF HIGH VALUE MACHINERY IN CLIENT'S PREMISE

In instances where clients lack the necessary equipment and manpower, we offer assistance in unloading at the project site. Recently, we unloaded a high-value machinery from our truck and successfully relocated it into the client's factory.

HANDLING AND STORAGE OF BITUMEN IN DRUMS AND JUMBO BAGS

Thanks to our experience in handling Bitumen, we have gained more customers in the asphalt industry. Mostly we have bitumen that is stored in drums but recently we have a new client that import bitumen in jumbo bags. They utilize our warehouse as a temporary transit point before delivering it to the project site.

HANDLING OF IMPORT CONTAINERS FOR LSS4 SOLAR PROJECTS

We are currently managing the import of a large volume of containers via Port Klang and Penang port, as several LSS4 solar projects have begun construction in 2023. With more projects scheduled to start soon, we anticipate taking on additional jobs in the coming months.

Cross Border Transport for one of the LSS4 solar projects

The Transformer was delivered using multi-axle hydraulic trailer from Thailand to the solar project in Perak. Upon arriving at site, we did a jack and skid operation to move the Transformer onto its foundation.

Cargo: Gas Turbine
Dimension: L11.00 m x W4.78 m x H5.04 m
Weight: 380 ton
