

## THE RISING OF AEROSPACE INDUSTRY IN MALAYSIA & WHAT WE'VE DONE

### AIRCRAFT COMPONENTS & PARTS

Aerospace is one of the industries that the Malaysian government has set its vision on, having released the Malaysian Aerospace Industry Blueprint 2030. We're glad that we have substantial experience handling aerospace cargoes with our set of existing clients. It is also in the pipeline to expand our portfolio in the industry. We expect to secure more aviation-related clients in the near future.

## EXPORT OF PALM OIL TO CHINA & OTHER COUNTRIES

Palm oil is a major export commodity of Malaysia and we take great pride in it. We recently secured a new client that supplies large volume of palm oil to primarily to China and several other countries. Palletised flexibags are extremely easy to handle and stuffing of containers are simply much faster.

## EXPORTING OOG CARGO TO VARIOUS COUNTRIES

On a consistent basis, we administer the transport and export of various OOG cargoes, especially for fabricators and engineering companies. For example, our recent shipments to Jakarta and Auckland involved shipping out sterilizer doors and cooler bundle assemblies.

## BUBBLE TEA FRENZY IN MALAYSIA

Malaysia is currently experiencing a bubble tea frenzy with reportedly more than 80 brands. Bubble tea joints are mushrooming so rapidly we can hardly catch up. Multi-Trans is also jumping on the bandwagon to be the logistics partner of some bubble tea owners to import raw ingredients and materials. Among the items are different kinds of tea leaves, cups, lids and flour.

Our warehouse is currently filled to the brim with several different forms of phosphate products for our long-term client, a specialised feed and fertilizer manufacturer. Packed in jumbo bags, they're usually stored in our warehouse for months awaiting delivery.

## WAREHOUSE FILLED WITH FERTILIZERS

## ARCADE GAME MACHINES FOR RENOWNED THEME PARK

We have a client who is a large theme park owner and there has been consistent upgrading of the arcade games machines in the recent months. We are responsible to receive the containers, unstuff them and deliver the machines to the site.

## AIR FREIGHTING 15 TONS OF PREMIUM PERSONAL CARE PRODUCTS

A client that we newly secured produces high quality products of personal hygiene for the export market. We just handled their first shipment of 15 tons to Sydney and we look forward to many more in the coming months.

## URGENT SHIPMENT FOR POWER PLANT FROM NARITA, JAPAN

One of the power plant projects that our group of companies are involved in is in its final completion stage. Due to a tight deadline, there have been numerous shipments of accessories, tools and machines from Japan to deliver in time for the final set-up of the plant.

**DOUBLE BANKING  
PROCEDURE FOR POWER PLANT**

Cargo: Generator Stator  
Dimension: L11.40 m x W5.10 m x H5.20 m  
Weight: 440 ton

Cargo: Offshore Structure  
Dimension: L14.80 m x W10.60 m x H5.60 m  
Weight: 57.80 ton

**TRANSPORTING  
O & G SKIDS**

Cargo: Skid (3 units)  
Dimension: L13.00 m x W9.30 m x H3.66 m  
Weight: 66 ton each

Cargo: Transformer (6 units)  
Dimension: L6.30 m x W2.45 m x H3.15 m  
Weight: 47 ton

**DELIVERING IN PORT KLANG FOR  
OFFSHORE OIL & GAS PROJECT**

**SKIDDING OF TRANSFORMERS FOR RAILWAY PROJECT**
