

AIR FREIGHT

16 TONS OF ARCADE DISPLAY TERMINAL FROM SYDNEY

106 pallets of gaming display terminals and their accessories were air freighted from Sydney, Australia to Malaysia for our client in the entertainment industry. From our warehouse, we loaded them all into five trucks to send them to our client's premise.

BALL VALVE FOR OIL AND GAS FLOWN IN FROM SHANGHAI

This is a door-to-door delivery for a new oil and gas client. We worked with our Chinese partner to fly this 4-ton Ball Valve out via Shanghai Airport. Then we delivered to the client's base, almost 400 kilometers away from the KL International Airport.

SOLAR PROJECTS FOR LARGE-SCALE SOLAR 4 IN MALAYSIA

As we mentioned in the previous newsletter, the construction for LSS4 projects has started. We're heavily involved in the handling of customs clearance and deliveries for our clients with projects in various locations. There are imports from China via Port Klang and Penang, cross-border land transport from Thailand and local deliveries.

AUTOMOTIVE STAMPING DIES FROM JAPAN ARRIVED IN PORT KLANG VIA CONVENTIONAL VESSEL

Every year we handle numerous stamping dies shipments imported from Japan. This round there were more than 30 packages ranging from 20 to 35 tons in weight that came via conventional vessel. The dies were stored in our warehouse before we delivered in batches to two different plant locations: Rawang and Tanjung Malim.

IMPORT OF HEAVY DUTY TRUCKS IN FLAT RACK CONTAINERS

These heavy duty prime movers weigh approximately 8 ton each. Shipments comprising 5-10 containers arrive in Port Klang almost on a weekly basis. We will arrange for the prime movers will be unstuffed from the containers within the port itself. Once clearance is done, they can be driven out individually.

OFFSHORE CONTAINERS AND BASKETS FOR OIL AND GAS

We have been handling a sizeable shipments of offshore containers from Japan to be sent to the oil and gas base in Kemaman, Terengganu. These containers and baskets are modular and available in different sizes used for storage purposes in offshore bases.

SUV CARS EXPANDING TO MALAYSIA

Our client is the vehicle's exclusive distributor in Malaysia. We received the vehicles in Port Klang from the RORO vessels, handled the customs clearance process and delivered them to the vehicle storage depot.

Pulau Indah Power Plant

PROJECT

Cargo: Transformer
Dimension: L12.00 m x W4.40 m x H4.70 m
Weight: 370 tons

EVENTS & HAPPENINGS

We spent a recent Saturday morning exercising together! Some of us ran, the others walked.. but we all stretched our legs, moved our muscles and had fun! All with the goal of becoming healthier.

Run, Walk & Breakfast

Date: 15th October 2022
